

# **BRITISH SOCIOLOGICAL ASSOCIATION SPORT STUDY GROUP POSTGRADUATE RESEARCH FORUM**

## **CALL FOR PAPERS**

**Thursday 5 September 2019 – Oxford Brookes University - Free**

The aim of this year's forum, hosted by Oxford Brookes, is to continue efforts to develop the BSA's postgraduate research community by providing students with the opportunity to appreciate current postgraduate research within sport, health and the social sciences.

This conference seeks to explore:

- 1) how identity related issues (gender, race, ethnicity, disability etc.) can influence involvement in sport;
- 2) how careers, within sport or otherwise, can be effected by individual relationships with sport, and;
- 3) how opportunities to engage in or excel at sport are impacted by interventions, programmes and other factors at local, regional and national levels.

This forum is open to any postgraduate student with an interest in sport.

The call for abstracts is now open, and the closing date is Wednesday 15 May 2019.

Please submit your abstracts to: **connortylerhumphries@gmail.com**

Accepted abstracts will be circulated by Wednesday 12 June 2019.

### **Selected topics could include:**

- |                               |                            |                                 |
|-------------------------------|----------------------------|---------------------------------|
| ■ Sociology of sport          | ■ Business                 | ■ Physical education            |
